Pet behavior problems are a leading cause of pet abandonment, relinquishment, abuse and neglect. As a reliable and educated source, veterinarians must help guide their clients in the right direction. Blackwell's Five-Minute Veterinary Consult Clinical Companion: Canine and Feline Behavior facilitates veterinarians in counseling clients and treating small animal behavior problems. Information is readily available in a practical and easy-to-use

format, with topics organised alphabetically for easy reference. Coverage includes typical problem behaviours in dogs and cats, such as various types of aggression, anxiety, fear, soiling and marking, vocalizing, and destructive behaviors. Appendices provide additional resources on psychopharmacology, learning and behavior modification, and client handouts. An accompanying CD-ROM also offers electronic versions of handouts for easy use.
