

Comes complete with full mechanical stage, coarse and fine focusing controls, Acromat objective 4X, 10X, 40X, 100X and pair of wide field 10X eyepieces and blue filter. Interchangeable head allows for trinocular head to be mounted.

**BM Lab Binocular Microscope**  
PROVET CODE: MICR 12

Complete with mechanical stage, coarse and fine focusing controls. Acromat 4X, 10X, 40, 100X oil. Wide field eyepieces 10X & 16X

**Univet Binocular Microscope**  
PROVET CODE: MICR 12H

Excellent quality ,affordability and a modern ergonomic design distinguishes this model from other microscopes. Unit comes complete with binocular head 30 deg inclined, 360 deg rotating. Widefield high eyepoint eyepieces 10X, reverse Plan Acromat Objectives 10X,40X,40X,100X oil. Coarse and fine focusing adjustment. Built in low mechanical stage, focusable 1.25 NA Abbe condenser. 5 year warranty.

**BI-220A Binocular Microscope**  
PROVET CODE: MICR A B1

**PRO VET**

## ESSENTIALS

**PRO VET**

A quality microscope with complete 30 deg incline, 360 deg rotating head, widefield high eyepoint eyepiece WF10X / 18mm, CCIS E Plan Achromat objectives EPL4X, 10X, 40X, 100X oil. Coaxial coarse and fine focusing adjustment, Built in low mechanical stage, Focusable 1.25 N.A. Abbe condenser. 5 year warranty

**BA 200 Binocular Microscope**  
PROVET CODE: MICR A BA1

Biological microscope with UIS2 optics for outstanding image results. The CX31 is a fixed specification binocular microscope for routine applications. It offers a rigid and durable construction with high performance and long life time. The optics provide bright and images and adapters allow mounting of Olympus digital camera for easy and efficient digital imaging. Leading in it's class of microscopes.

**Olympus Microscope CX31 32C02**  
PROVET CODE: MICR O 9

The Moticom 1000 is supplied with all necessary adaptors to turn almost any microscope into a digital microscope, monocular, binocular or trinocular. The capture interface of the Moticom 1000 offers more advanced features to ensure a true-colour clear image with every shot. A first for the digital microscopy market, the Moticom 1000 is a 1.3 megapixel resolution camera using a high-speed USB2.0 connection. A free USB2.0 PCI card is included in the package.

**Moticom 1000 Microscope Camera**  
PROVET CODE: MICR A M

# LABORATORY

Statspin VT is a small centrifuge, designed to run a variety of applications quickly, efficiently and quietly. Sample preparations take as little as 30 seconds, none longer than 2 minutes. Small sample volume requirements make the Statspin VT ideal for MHCT and samples up to 3ml.

**Statspin VT**  
PROVET CODE: CENT S M

Designed for qualitative analysis of blood, serum, urea, vaccine etc in clinical and biochemical laboratories. Speed: 0-4000 r/min

**Lab centrifuge 6 x 15ml**  
PROVET CODE: CENT 01

A multipurpose centrifuge with a speed range of 0-12,000 rpm. This multi-purpose unit comes complete with a 24 place MHCT rotor and a free standing reader. A 12 place 10/15ml Rotor and 4 place 50ml Rotor is also available. Simply use the allen key provided to change rotors. 12 months warranty on parts and labour.

**MPU centrifuge MHCT with reader**  
PROVET CODE: CENT 07

Quick and easy way to seal capillary tubes. Disposable plastic holder contains special sealing clay.

**Capillary tube sealant pad**  
PROVET CODE: SEAL E 2

Compact general purpose economy incubators, finished internally in stainless steel and externally in PVC coated steel. Removable open wire, chrome plated shelves and a 13mm diameter port at the left side. Provides close tolerance temperature control. Lightweight and portable. Control stability  $\pm 0.25$  deg cel.

**Thermoline incubators**  
PROVET CODE: INCU T 43

50x29x29 43ltr

PROVET CODE: INCU T

22x25x24 13ltr

The Thermoline range of uncirculated water baths have seamless stainless steel tanks with radial corners, fibreglass insulation, PVC coated steel outer case and two external lifting handles. 22 litre and 40 litre units are also available.

**Water Bath 10 lt**  
PROVET CODE: WATE B 10

Quality hand size lamp with torch included.  
Comes complete with 4 AA batteries

**Woods Lamp**  
PROVET CODE: WOOD L 8

Rugged plastic construction.  
Convenient hand size. Torch  
Included. Takes 4 AA batteries  
(not included)

**Woods Lamp**  
PROVET CODE: WOOD L 1

**Woods Lamp Lge. - Black Light**  
PROVET CODE: WOOD L E

Dif-Quick Stain Set is for the rapid, differential staining of haematological smears that yields qualitative results.

**Dif-quick stain set**  
PROVET CODE: DIFQ S S

Easy, accurate and standardised system for diagnosing parasites in all animals. Kit includes faecaliser cylinder, cap and strainer with instructions. Box of 50.

**Faecalysers Containers 50's**  
PROVET CODE: FAEC K 1

**Faecalysers Containers 30's**  
PROVET CODE: FAEC K

**Faecalysers Containers single**  
PROVET CODE: FAEC C

**Faecalysers Flotation Liquid 1lt**  
PROVET CODE: FAEC F 5

## ESSENTIALS

**PRO VET**

Used for diagnosing Dermatophyte infections. Simple, rapid and practical method is based upon colour change.

**Fungassay kit 10's**  
PROVET CODE: FUNG K

Whitlock McMaster 3 chamber worm egg counting slide is the original 3-chambered counting slide and was designed for parasite detection. Features 3 chambers, each 0.3ml volume, Each chamber is divided into two areas of 0.15ml. Saves time, allows for 3 samples on each slide and simple calculations.

**McMaster Worm Egg Slide**  
PROVET CODE: MCMA W S

**Universal egg counting chamber**  
PROVET CODE: UNIV E C

Plastic Coplin Jar, holds 5 microscope slides

**Coplin Jar - 5 slide**  
PROVET CODE: COPL J

**Haemocytometer Chamber**  
PROVET CODE: HAEM 01

Whitlock Universal 4 chamber worm egg slide  
- each chamber of 0.5ml. 78x35mm

**Neubar White Cell Counter Chamber**  
PROVET CODE: NEUB WCC

The Accucheck Advantage System offers you trusted, uncomplicated blood sugar monitoring. Easy to use. Easy to handle.

**Accucheck Glucose Test Kit**  
PROVET CODE: ACCU A

Glucose test strips for use with the Accucheck Advantage System. Strips are used for the quantitative determination of blood glucose in the range of 0.6-33.3 mmol/l

**Accucheck Active Glucose Strips**  
PROVET CODE: ACCU A 2

Urine test strips for unequalled performance. Clear and reliable results. Easy to read vertical colour scale.

**Combur 9 test strips 50's**  
PROVET CODE: COMB 09

Cost effective, accurate way to test urine pH. Only a small sample volume of 1-2cc allows cat urine to be tested. Easy to calibrate. 12 month warranty.

**iM3 Urine Ph Meter**  
PROVET CODE: URIN P2400

The Foal Watch Test measures the concentration of calcium in the mares colostrum. The calcium level rises sharply before birth. Comes complete with everything you need to test.

**Foal Watch 20 sets**  
PROVET CODE: FOAL W 1

**PRO VET**

## ESSENTIALS

**PRO VET**

Specially developed for light duty wiping of delicate precision parts and instruments such as optical products and laboratory equipment. The fine soft tissue surface picks up and holds oil, dust and liquids. Suitable for use with lens cleaning solutions. Resists scratching sensitive surfaces.

**Kimwipes 12x21 cm x 200**  
PROVET CODE: KIMW 01

This model has 3 scales: Protein in serum, Urine Specific Gravity and Refractive Index. This is a precision instrument with a built in automatic temperature compensation system between 10 and 30 deg cel.

**Refractometer**  
PROVET CODE: REFR AIS 1

**Refractometer**  
PROVET CODE: REFR C E

For estimation of IgG levels in mares colostrum. Only one drop of colostrum is required for testing. Light weight, no batteries, no consumables, Easy to use!!

All high quality tourniquets featuring one hand operation, no pinching, catching or jamming, easy access to function keys no unintentional opening. automatic release, autoclavable upto 121°C. brightly coloured designs.
