

VETERINARY DRUG HANDBOOK: DESK

081380518X • 5e • Plumb • May 05 **A\$RRP \$182.00**
NZ \$218.40

This edition of the handbook includes more than 50 new monographs with a list of synonyms at the end of each monograph, a revised insulin monograph, an expanded ophthalmology section and new headings for reproductive/nursing safety.

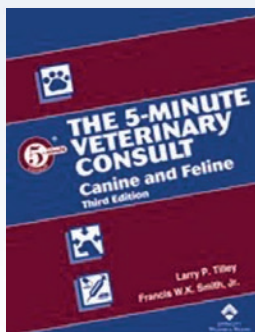

Prescriber Highlights introduce each monograph, adding quick reference convenience to this world-class sourcebook. New to this edition is a larger 8 1/2 x 11 double column format, in the desk

version, for enhanced readability and ease of use. Plumb's one-volume coverage of drugs approved for veterinary species and non-approved (human) drugs that are used in veterinary practices today make this book "required reading" for veterinarians, veterinary pharmacologists, pharmacists in veterinary hospital practice, laboratory and veterinary technicians, animal research facilities, and libraries that serve these groups.

Author: Donald C. Plumb. With contributions from: Gigi Davidson, C.A. Tony Buffington, Cheryl Holloway and Dinah Jordan.

5-MINUTE VETERINARY CONSULT CANINE AND FELINE

078174038X • 3e • Tilley • Sep-05 • HB **A\$RRP \$198.00**
NZ \$237.60

The thoroughly revised, updated Third Edition of this best-selling quick reference offers timely, authoritative answers to every common and not-so-common question concerning canine and feline health. More than 300 top specialists provide complete coverage of over 700 specific disorders. This edition's brand-new behavior section is written by pre-eminent experts in small animal behavior and offers

valuable therapeutic and drug information. More than 60 new entries cover a wide range of clinical syndromes, and the drug formulary has been updated and expanded. All topics are presented alphabetically, the index includes breed species, and major sections are thumb-tabbed for faster location.

BSAVA SMALL ANIMAL FORMULARY

0905214889 • 5e • Jun-05 • PB **A\$RRP \$82.50**
NZ \$139.20

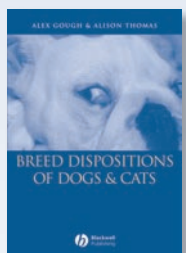

Now in its fifth edition and widely used by practitioners and students, the BSAV Small Animal Formulary provides a wealth of information on veterinary licensed and human drugs used in companion animal medicine. The three years since the last edition have seen changes in prescribing practices, the arguments of which have long been played out. However, the use of 'off-label' drugs continues to draw comment. Many of the drugs listed in the formulary are unlicensed

for the species we treat. If they are to be used ahead of a licensed product there must be a clear and definable clinical advantage to their use. Some comments on prescribing off-label drugs has been added to the section on prescribing.

BREED PREDISPOSITIONS TO DISEASE IN DOGS & CATS

1405107480 • Gough • 1e • April 04 **A\$RRP \$115.00**
NZ \$138.00

A comprehensive reference to all the diseases and disorders of dogs and cats that are either inherited or more prevalent in certain breeds. There is no other single book that covers this subject. Information on breed-related diseases from numerous high-quality sources are gathered together in one place for the first time. If you are veterinary surgeon or student needing a handy reference book, or a breeder

wanting to know more about your own breed then this book will be invaluable.

- Fills an urgent need for information at breeder and veterinary/geneticist level
- No other book covers both cats and dogs
- Jargon-free and easy to follow
- Will save hours of searching through scattered literature

Authors: Alex Gough and Alison Thomas

BSAVA MANUAL OF CANINE AND FELINE BEHAVIOURAL MEDICINE

0905214595 • Howitz • 1e • Nov 02 **A\$RRP \$200.00**
NZ \$227.70

BSAV's Manual of Canine and Feline Behavioural Medicine deals with dog and cat behaviours using a problem-oriented approach, emphasizing the practical aspects of behaviour in the straight forward style of the BSAV. The manual's chapters are written by international experts and are organized in a standard format to aid in information retrieval.

Editors: Debra Horwitz, Daniel Mills and Sarah Heath
